

Remomedi PickupPharmacy 2023 Product Line

Remomedi PickupPharmacy lockers are designed for hospitals, pharmacies and pharmacy chains:

- Burglar and fireproof steel structure
- Build-in encrypted wireless communication
- Temperature zones 2–8°C and 15–25°C
- Build-in multipoint temperature control and alert system
- Works together with access control in a draught lobby
- Modular, expandable

Climatop models are designed to be used in locations where ambient (room) temperature deviates from the medication storage temperature area of +15C° – +25C°. Typical installation locations are sun exposed areas, wind rooms and locations close to heating sources.

The standard product has 16 storage compartments in two columns of which 2 are large, 6 are mid-sized and 8 are small. One or two mid-sized compartments can be equipped with cool boxes for delivery of products requiring refrigeration.

Standard Climatop color is RAL9003 Signal white, all sides painted. Other whitish RAL-colors are available by order (see the spec below). About 25% of the exterior surface can be covered with multi-color stickers or printed graphics. Dark colors are not available. Please contact Remomedi sales for details.

Standard model 10111

Climatop models

Climatop with Add-on locker,
32 doors

Remomedi is pharmacies' partner in implementing omnichannel strategies including automated parcel delivery through locker stations. We offer turnkey solutions from product development to network operations and maintenance. Our unique solutions help pharmacies save money and offer the best customer experience for end-users.

Technical specifications
